Inclusion

The equipment marked with this symbol is barrier-free accessible and especially suitable for integrative playspaces.

Content

Preface	4 - 5
Hull Ships	
Nile Galley	6 - 7
Large Twin-Masted Ship	8 - 9
Shipwreck 01	10 - 11
Shipwreck 02	12 - 13
Metal Ship "Sand"	14 - 15
Design Firefighting Boat	16 - 17
Platform Ships	
Fishing Boat	18 - 19
Small Twin-Masted Ship	20 - 21
Play Ship 01	22 - 23
Play Ship 02	24 - 25
Roman Ship	26 - 27
Canal Boat	28 - 29
Ship's Stern	30 - 31
Cutter	32 - 33
Ship „Mississippi Queen“	34 - 35
Small Ships & Boats	36 - 37
Design other ships	38 - 39

SHIPS

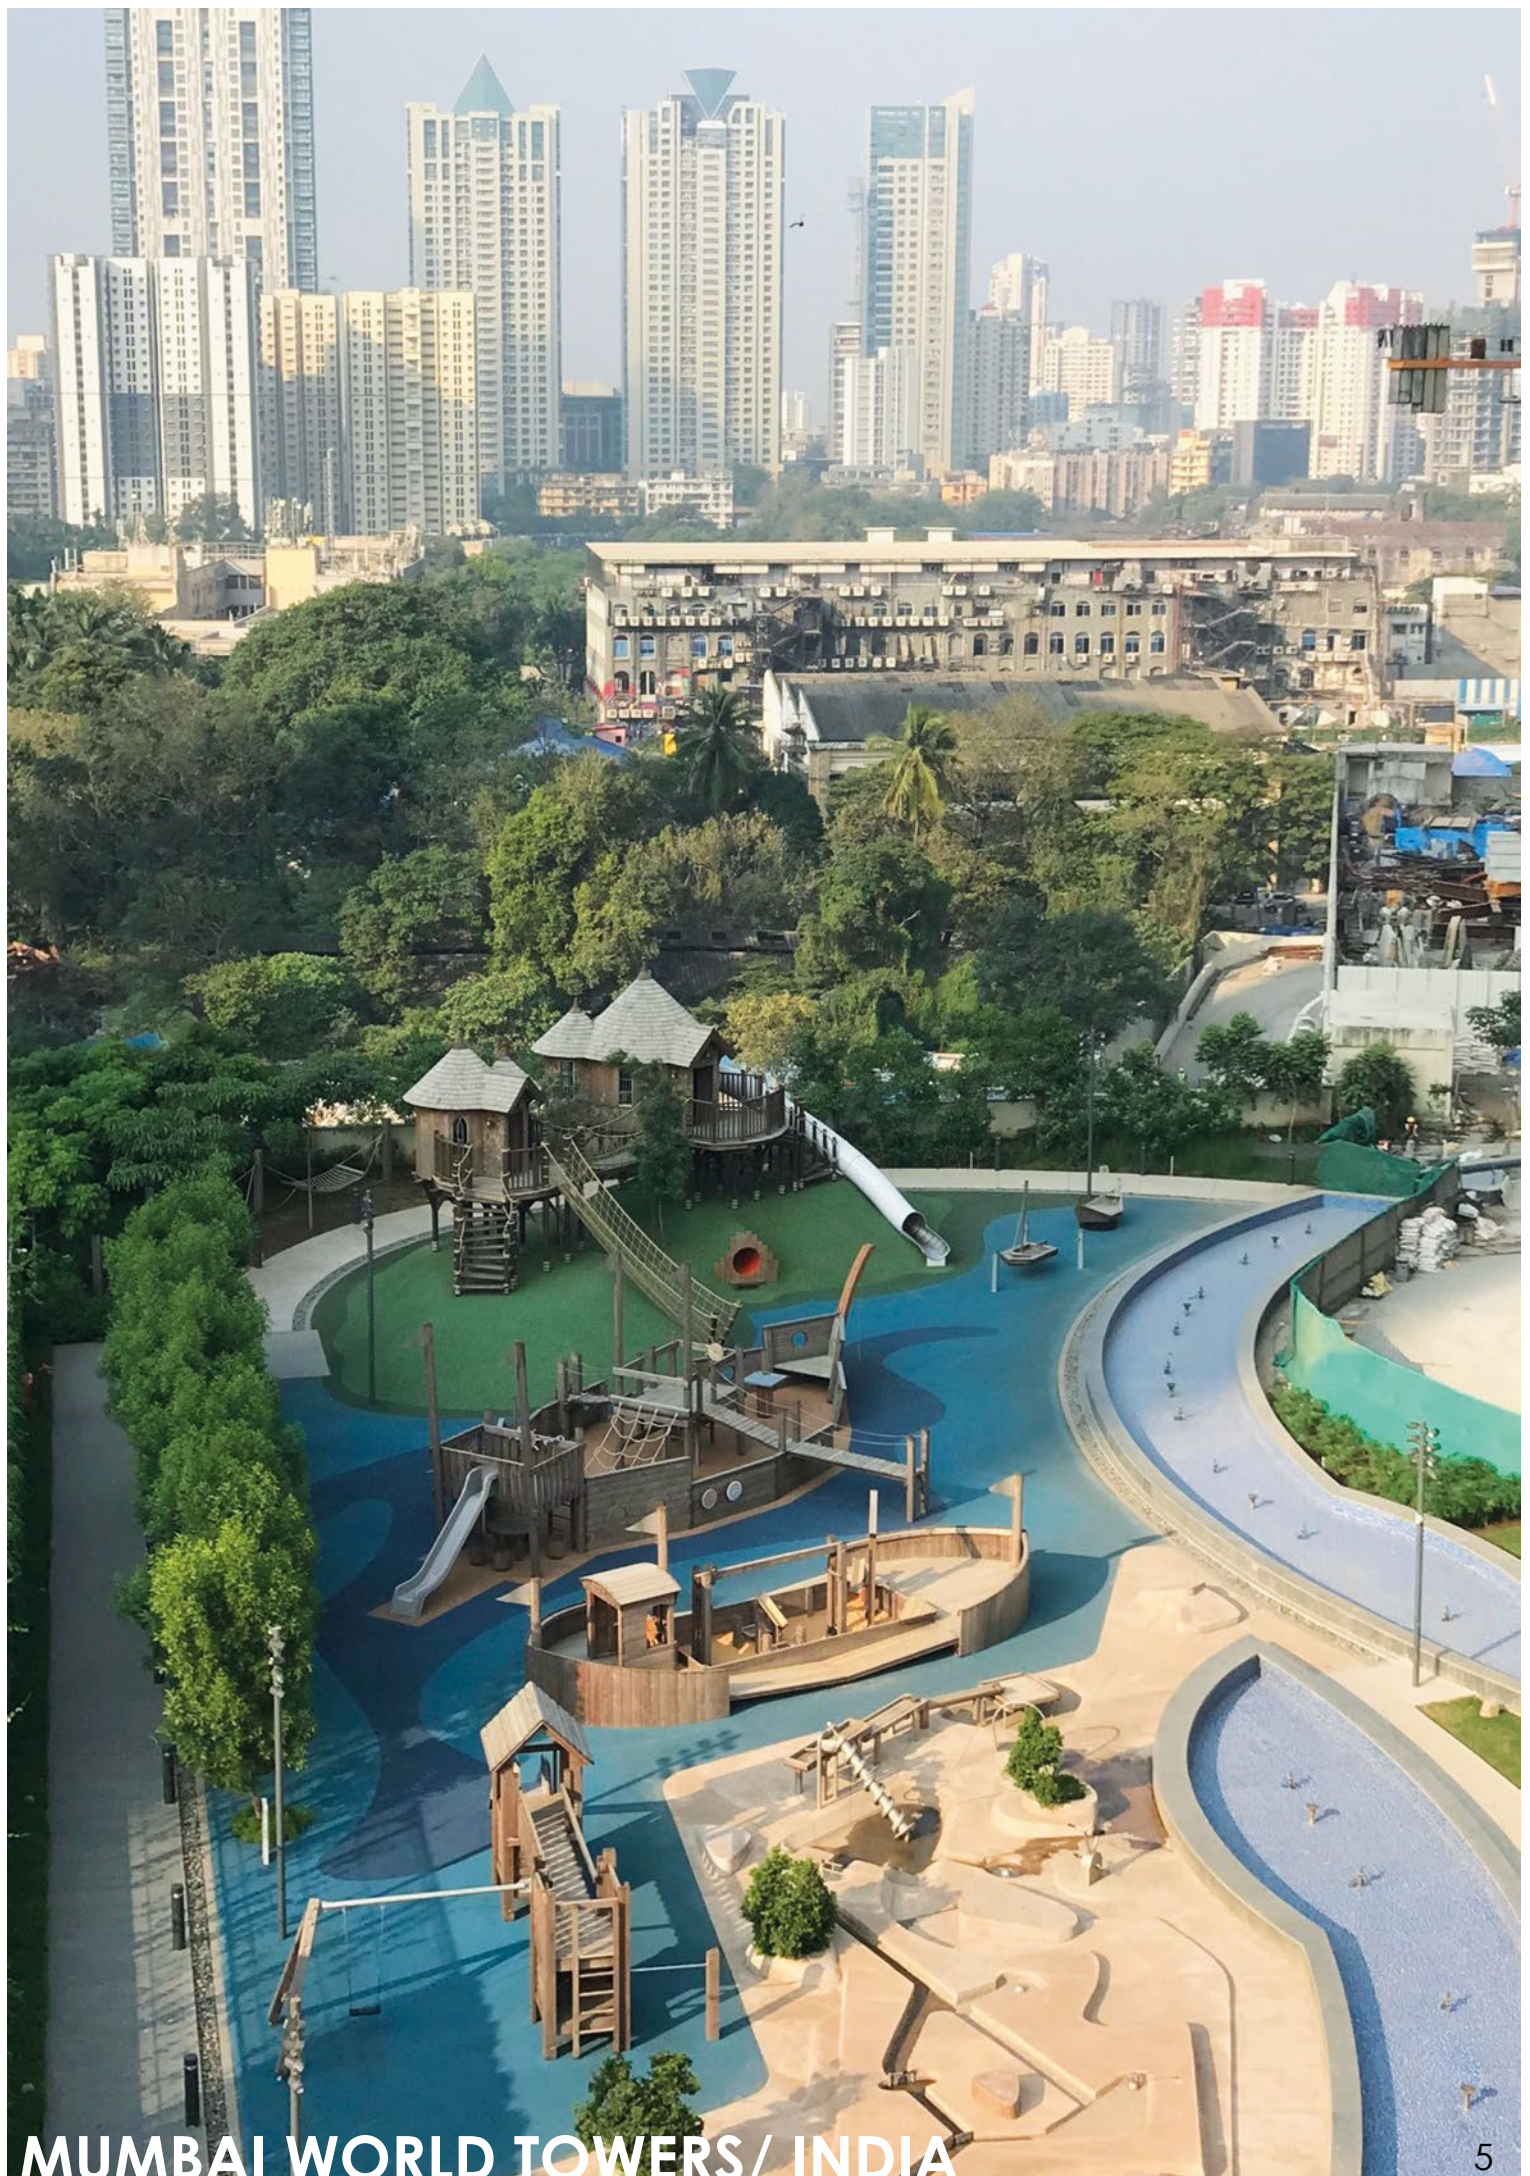

"Ahoy!", "Cast off!",
"Prepare to board!"

Children are drawn towards ships as if by magic. But bigger people are also fascinated by them.

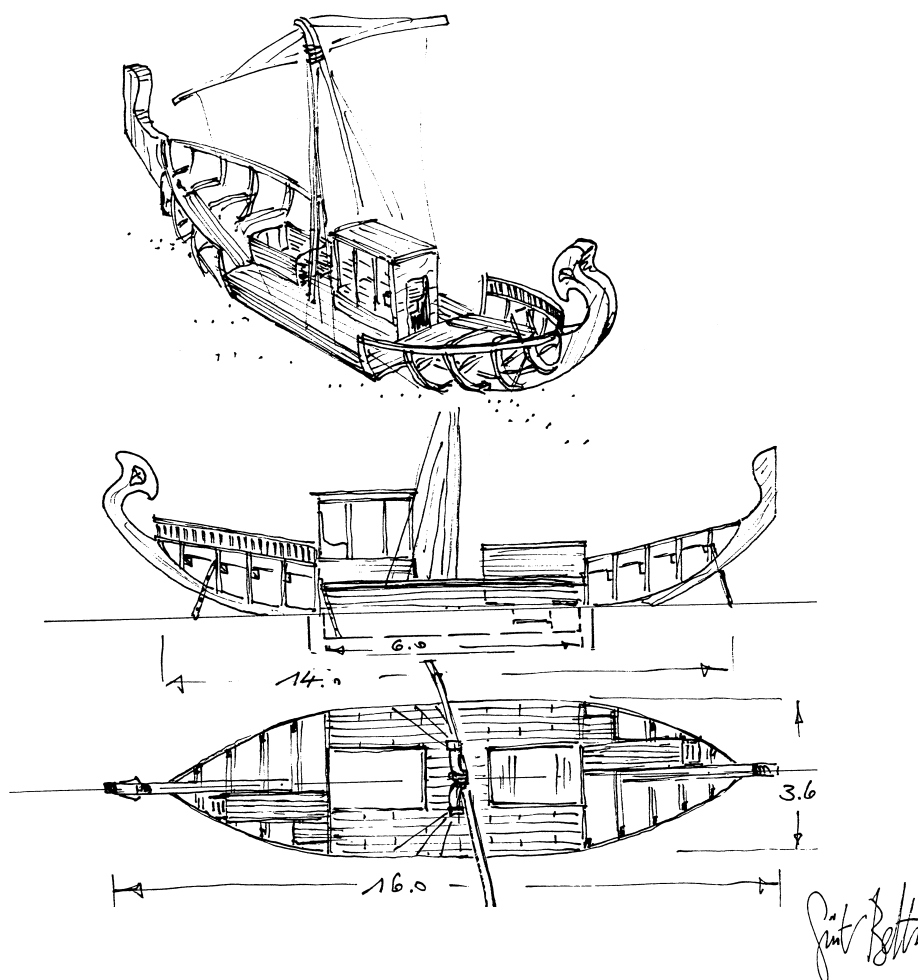

Ships are the oldest form of transport in the world. New continents were discovered with their help. They convey huge loads and countless passengers thousands of nautical miles.

There are many different types of ships, from small sailing boats and yachts up to cargo ships, navy vessels, huge passenger ships or tankers as big as a tower block. There are a great variety of models and versions – but each of them float and they all need a crew to man them.

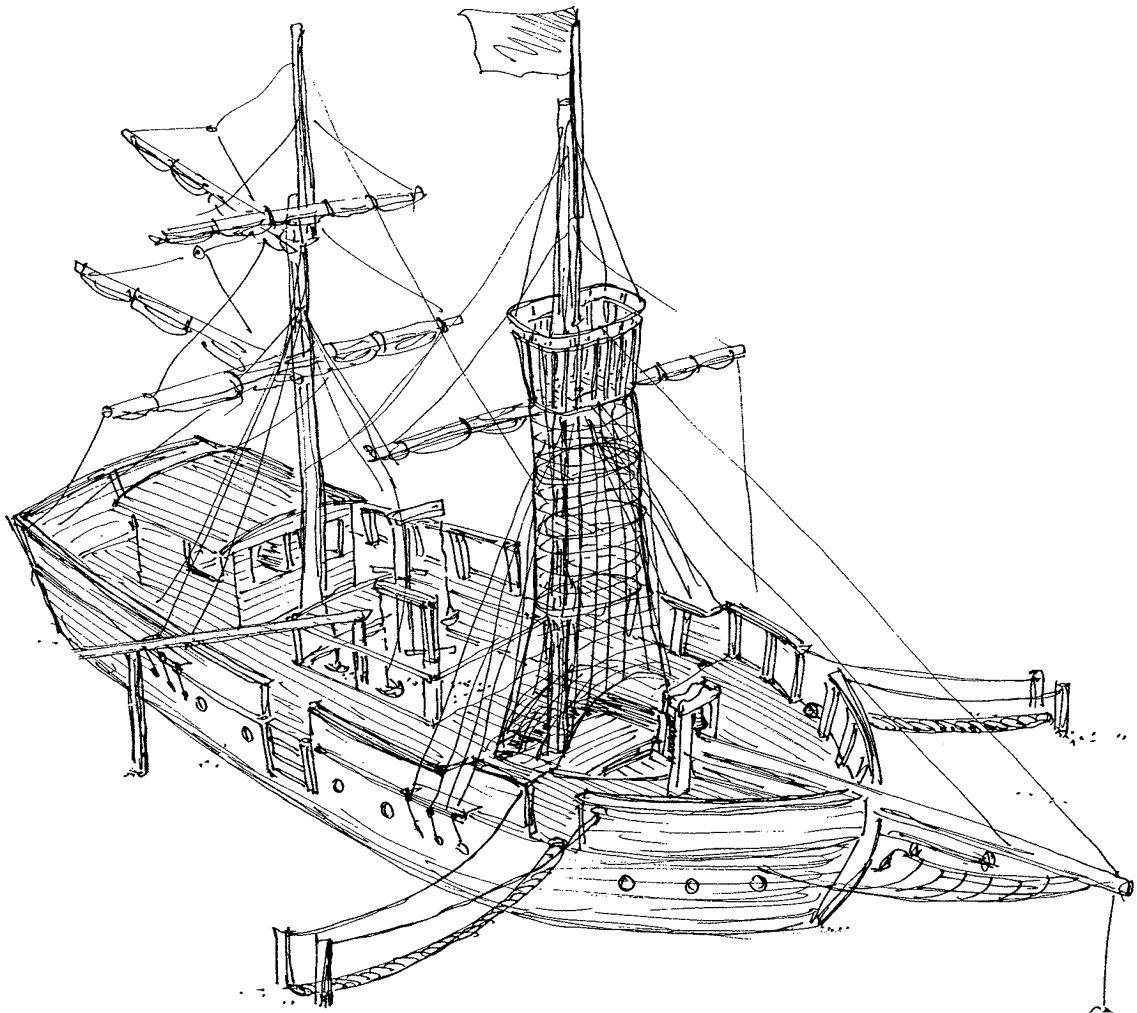

To be able to slip into the role of pirate, captain, helmsperson or sailor is fun for both younger and older children. And it is even more satisfying and exciting if this game can take place on board a "real" ship.

CANAL BOAT

DAISY NOOK COUNTRY PARK/ ENGLAND

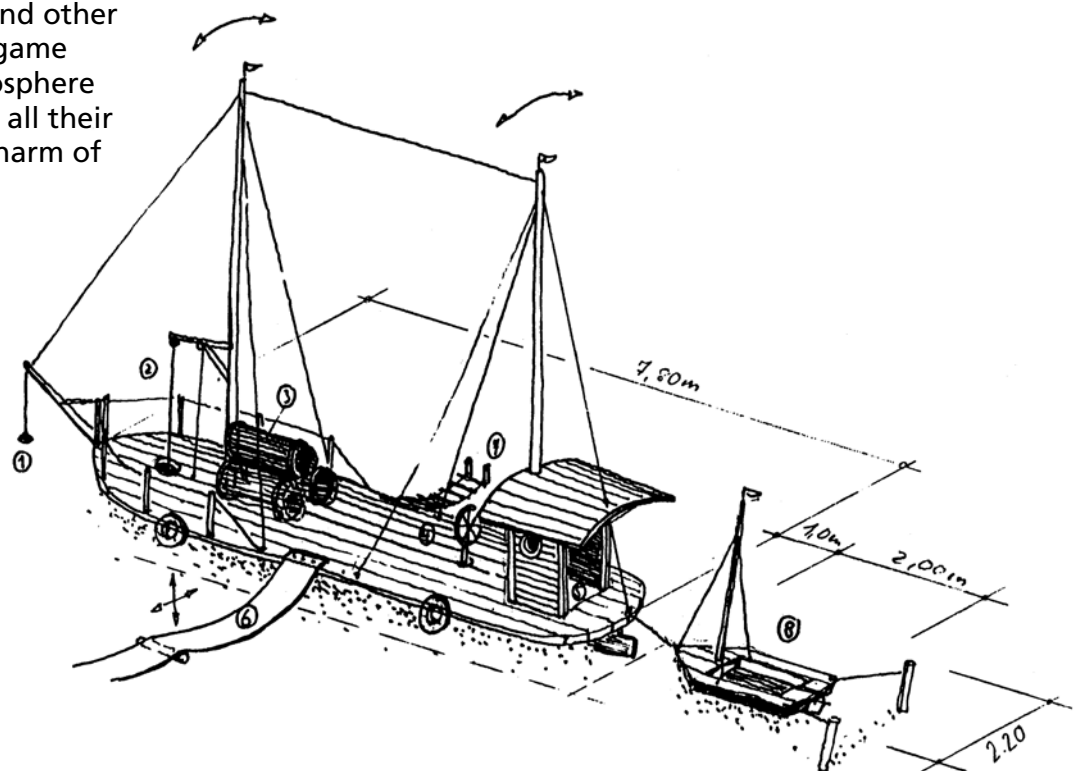

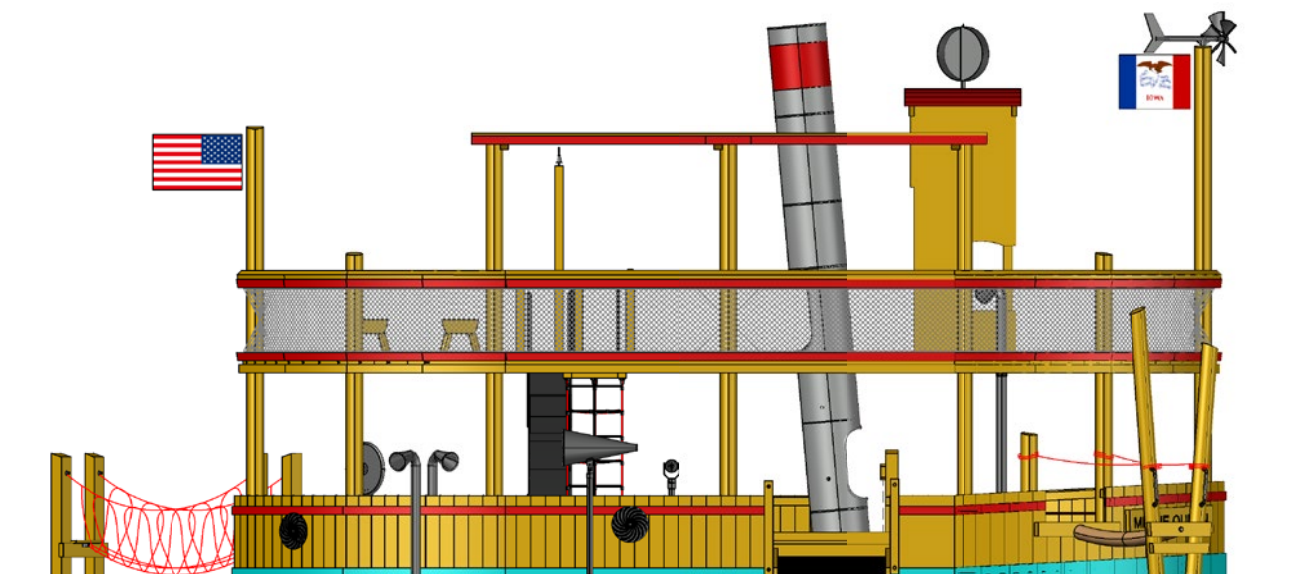

The Cutter is a ship that can really “sail”. A counterweight, which corresponds in technical terms to the keel of a boat, allows the boat to make a rocking movement as if it were floating on the water. The movement is gentle and can be initiated even by small children walking up and down. Together with the cabin, the helm and other elements, this movement game creates a special play atmosphere where little sailors can use all their senses to experience the charm of a ship.

Younger children in particular will enjoy taking part in movement and role-playing games on our small ships and boats. With the Sailing Boat, Catamaran, Swaying Ship or small Sand Play Ship, even landlubbers can embark on a great voyage.

The Sailing Boat and Catamaran will have young explorers bobbing happily on the waves, especially if someone is at the mast to make sure there is a strong breeze.

The small Sand Play Ship is both a sandbox and a sailboat. Very young children can take on the role of pirate, sailor or captain, and at the same time play in the sand of the ship's hull.

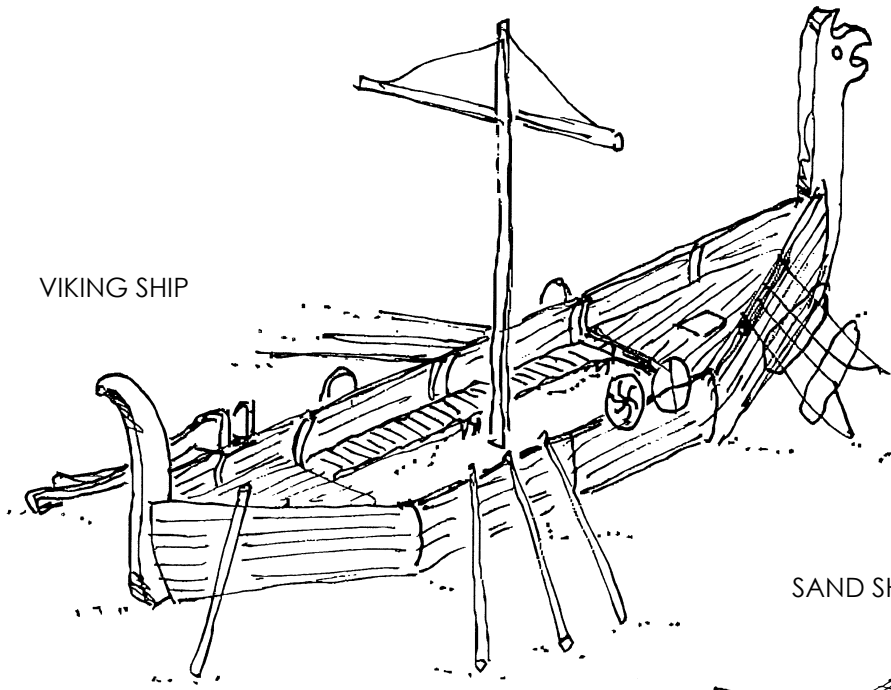

The Swaying Ship is also an attraction for the little ones. The first to discover the ship can claim one of the two seats. But they won't really get going until the opposite seat is taken. Then they must concentrate all their efforts on creating a rocking motion. The resilience of the large tyre allows for a gentle sway in all directions.
