

Skills

Level 6: The CAVEMAN in us – being loud means searching for our position. This is how we discover our role in life. Physical power is transformed into speech. Finding our own rhythm. Assuming responsibility, participating in society.

How to perform the exercise

The purpose of the log drum is to occupy us with rhythm. Use your fingers to drum various rhythms on the adjustable disc at the front of the drum. Change the position of the disc to make the opening larger or smaller. This varies the pitch.
