

**Skills**

Level 6: The CAVEMAN in us – being loud means searching for our position. This is how we discover our position in life. Physical power is transformed into speech. Finding our own rhythm. Assuming responsibility, participating in society.

**How to perform the exercise**

Navigating a path through a labyrinth, a primeval symbol of knowledge for solving the problems of life using rhythm and balance, unites our strength and our emotions and promotes our ability to express ourselves in language. This can be carried out and experienced by walking, dancing, purposeful striding, rocking or a slow lingering walk. You can't lose your way in the labyrinth. The path leads to the middle and then out again. This can be repeated over and over.
