

Round spring platforms are mounted on strong, low springs. It is not only fun to jump on them, but one can jump off the disc in any direction, as from a springboard. The momentum which is enforced by the springs propels the jumping child quite far. Jumping from one disc to the other represents a special sequence of movements and a challenge for small children.

### **Fundamental characteristics**

- Wooden surface with natural structure for a good grip
- Incentive for playing: round, low wooden plate, springs
- Movement: jumping up and down, jumping off, hopping

# **Recommended for**

- Kindergarten children
- School children
- Supervised play areas, such as kindergartens, schools, after-school programmes or similar
- Public play areas without supervision, such as playgrounds, parks or similar
- Swimming pools without supervision, such as outdoor pools, adventure pools or similar

# **Planning information**

The installation of at least two Jumping Discs is recommended.

**Jumping Disc** 

Safety check according to DIN EN 1176

# **Components**

- 1 Disc complete with 3 springs
- 1 Pre-fabricated foundation made of reinforced concrete C35/45

#### **Installation information**

Surfacing requirements corresponding to a fall height of  $\leq$  0.60 m (please refer to price list for more detailed information)

Foundations

Excavation for pre-fabricated concrete foundation Ø 95 cm x 15 cm For installation in loose material, an additional anchorage in concrete is necessary on-site.

# Attention:

Exact measurements may vary, for all installation dimensions refer to current installation instructions.

Technical changes reserved.

#### **Technical information**

Equipment made of non-impregnated mountain larch

#### Core-free

Sawn-timbers core-free, thus decreasing occurrences of cracking and undesired changes in shape

# For more detailed explanation of the quality characteristics see price list.

Top of 45 mm boards, screwed together with expansion joints

Coated springs, Standard colour red

Fastening elements galvanised

#### Dimensions

(small deviations possible)

Height 0.35 m Diameter 1.00 m Weight 170 kg
